HTML ASSIGNMENT

Eman Shoaib — index.html

Complete HTML Code with the images used in the page

HTML Code

```
<!DOCTYPE html>
<html>

<head>
    <title>My first index.html page</title>
</head>

<body>
    <header>
        <h1>Eman Shoaib</h1>
    </header>

    <main>
        <section>
            <h2>My introduction</h2>
            <p>My name, as mentioned in the title, is Eman. I am learning Web Development.</p>
        </section>

        <section>
            <h2>Skills</h2>
            <p>I got some pretty decent skills. I'll mention them right below.</p>
            <ul>
                <li>Photography</li>
                <li>Sketching</li>
                <li>Painting</li>
            </ul>

            <aside>
                <h3>Examples of my work</h3>
                <img src="orange orchard.jpeg" alt="My photography work">
                <img src="sketch.jpeg" alt="A sketch made by me">
            </aside>
        </section>

        <section>
            <h2>Goals</h2>
            <p>My goals are to get command on all basic web development and foundation skills. Also improving my
vocabulary, English speaking skills and vocabulary.</p>
        </section>
    </main>
